THREE SCORE MEN BURIED IN A MINE

Explosion in an Alaska Shaft Cuts Off Over Sixty Workers.

LITTLE HOPE FOR THEM

Deadly Gases, It is Expected, Did Fatal Work for Them in a Few Minutes.

EFFORTS TO REACH VICTIMS

Victoria, B. C., Feb. 16.—The details from the Union mine explosion at Cumberland are still very meagre.

There is no doubt but that all of the sixty men that were entombed are dead. It is impossible to enter the shaft because of gas and smoke.

The explosion ignited the mine, wrecking the shaft from midway down to the bottom and filling it with a solid mass of rocks, earth and timbers. The first explosion was followed by several more, while the dense volume of smoke issuing from the vent holes indicated only too truly that the fire as well as the gas was doing its destructive work below.

Many of the men are married and have large families.

SIXTY MEN ARE ENTOMBED.

Fatal Explosion in a Mine at Cumberland on the Alaska Border.

Victoria, B. C., Sept. 16.—The town of Cumberland, which lies across from Union bay, where all the Alaskan miners call to fill their coal bunkers, was shaken by a terrific explosion at 10:40 a. m. The explosion was at shaft No. 8, Union mines, owned by the Wellington Colliery company, of which James Dunsmuir, the premier of the province, is the principal shareholder. Of the sixty men imprisoned in the mines the names of the following are obtainable: —Walker and two sons, John White, Thomas Lord, Robert Steel, George Turnbull. Many of the men are married and have large families. In a very few minutes crowds gathered at the pit head and willing workers hurried here and there, the majority, laboring under great excitement, doing whatever could be done, which, sad to say, was little. After the explosion there came fire, and, entombed in this hell of fallen coal, broken and crushed mining timber and debris, are sixty men, forty of whom are whites and the remainder Asiatics. The staff of workers known to be in the mine is computed at that number, and since the loud explosion noise has reached the surface.

THE WORST IS FEARED.

From the force of the explosion, which covered the ground in the vicinity of the head with a layer of crushed and broken mine timber, men of experience fear the worst. Little hope is expressed that any of the unfortunate imprisoned below will be brought out alive. No. 6 shaft is nearly 600 feet deep, and the workings are connected with the shaft of No. 5, which is a mile and a half away. A mounted man dashed across at once to that place and a search party was sent down into the workings from No. 5. After getting near the doors between the two shafts this party was forced back, having encountered fire and damp, and they had to race with all speed backward in order to guard being overcome by the quick traveling gases. Between the two pits fire was found to be raging, but whether this is because the coal has been fired or the broken mining timber is burning is not certain. Rescue parties tried ineffectually also from the pit of No. 6.

to get down to the buried men, but they were unable to get to the bottom, the cage not being lowered with safety more than two-thirds of the way down. At this writing volunteers and the officials are straining every muscle to clear out the obstructions of the shaft and to reach the unfortunate below. The fan and hoisting gear is intact and many look for the mine to be bottomed today. All hope has been abandoned, however, that any of the men will be got out living.

KILLED BY NATURAL GAS.

Canton, O., Feb. 16.—Edward Grimm, local manager of the Cleveland Provision company, is dead, and his wife, two children and his wife's sister are unconscious and in a precarious condition from suffocation. Grimm and his wife had been ill. When the physicians called about noon they found the whole household prostrated. It is supposed natural gas escaped from a leak and filled the house. Grimm is from Youngstown.

SENTINEL BOUGHT BY CHAS. F. PFISTER

Worthy Business Man Now the Sole Owner of Milwaukee's Pioneer Republican Daily Newspaper.

Milwaukee, Feb. 16.—The Milwaukee Sentinel has been sold to Chas. F. Pfister. With the paper goes the Sentinel building. The price paid is around \$500,000. While neither Mr. Pfister nor the former owners will confirm the sale, it can be stated as a fact that the deal has been consummated and that the transfer will be made next Monday.

There have been all sorts of rumors as to the purchasers, one of which was that the street railway had bought the paper and another that Henry C. Payne and Frank Bigelow were interested, but it can be stated positively that the future owner will be Mr. Pfister, who has taken the entire stock and who will be ranked henceforth among the newspaper men of the country.

While Mr. Pfister will be the owner of the paper he will have nothing to do with its active management. All of that will be in the hands of Lansing Warren of Chicago, who will have the entire control of the publication in all of its departments.

It is stated that there will be few changes either in the personnel of the staff or of the paper's policy. It will continue to be as it has been in the past, a vigorous exponent of republicanism, free from factional taint. It will be fair to all sides within the party and become a newspaper in the best sense of the word.

STEEL TRUST CAPITAL

Incorporation Papers Are Being Drawn Up and the Capital Has Been Fixed at \$800,000,000.

New York, Feb. 16.—It is learned today that he great steel trust deal is about to be consummated, incorporation papers drawn up. The capital will be fully eight hundred million dollars which far exceeds any company ever formed in the United States. It is likely that it will be named the United States Steel Co.

MOBS AT MADRID ATTACK CONVENTS

Pitched Battle This Morning Between Rioters and Troops—Four Killed; 120 Wounded.

Paris, Feb. 16.—A telegram from Madrid says mobs attacked the convents there this morning and a pitched battle resulted between the people and the soldiers, the latter killing four persons and wounding one hundred and twenty. Two persons were killed in a demonstration at Granada yesterday. At Valencia troops have occupied the principal points of the

CRUSADE IN KANSAS SPREADING; MANY RAIDS ON LIQUOR JOINTS

Fixtures Wrecked and Whisky Poured Into the Streets—Men and Women Engaged in the Work of Saloon Destruction.

Kansas City, Mo., Feb. 16.—Fifteen determined women armed with hatchets, moved upon the joints of Perry, Kas., last night and when they had done with them the fixtures were reduced to kindling wood and the street ran with whiskey and beer.

The women were accompanied by several men, whose mission was to see that no bodily harm was done them. The proprietor of the first saloon visited was politeness itself. He invited the women in, told them to help themselves, and held the lamp while they stoked in the heads of ten whiskey barrels and thirty seven beer kegs and emptied their contents into the street. The fixtures of this place were of little value but were destroyed. In order to prevent the women from wrecking the cigar case the proprietor distributed its contents among the crowd.

BAR HACKED TO SLIVERS.

The next saloon was fitted with handsome fixtures, which were hacked to pieces and distributed as souvenirs among the crowd which had assembled. Six barrels of whiskey and twenty-five kegs and twenty cases of beer were destroyed.

One woman who vigorously attacked a beer keg with an ax, was drenched with its foaming contents as it rushed from the opening made by the weapon.

The third and last jointist had been apprised of the approach of the crusaders and hastily concealed several barrels of liquor in the cellar. He also substituted water for the beer in a large number of the bottles. Nothing however was overlooked by the women. The hidden liquor was ferreted out and emptied on the cellar floor, and the beer kegs, bar fixtures, and glass ware were demolished.

CLOSE JOINTS IN TWO TOWNS.

Olpe, Kas., Feb. 16.—A large troop of women headed by the Ministers of the town, today waited upon the jointists and gave them fifteen minutes to close. The women were armed with hatchets and threatened to smash the fixtures. The saloon men closed immediately. The same process was repeated at Cottonwood Falls.

HATCHET BRIGADE AT EMPORIA.

Emporia, Kas., Feb. 16.—The principal churches of the city have agreed upon a plan to suppress the joints. A committee has been appointed, with orders to have the saloons closed within a few days. The women have organized and stand ready to do the hatchet execution if it is needed.

PECK CLEARED OF ITS SALOONS.

Peck, Kas., Feb. 16.—About 100 prohibitionists men women and children, living mostly outside of Peck raided two joints in this town last night. The citizens looked on in indifference, little excitement prevailing. Peck is about fourteen miles south of Wichita.

KRUGER WANTS A FAIR HEARING; WAR WAS FORCED UPON THE BOERS

He Wants Some One to Judge Between England and the Transvaal—He is Disappointed in Europe—Sorrow for His Wife.

London, Feb. 16.—The Pall Mall Magazine will publish tomorrow an interview with Mr. Kruger in part as follows:

"Will no one arbitrate? Will no one give us a chance of defending ourselves? We may have done wrongly; we have our faults and our weaknesses. We declared war, but our hands were forced and we can prove it. Get some one to judge between this England and ourselves."

When asked why he came to Europe he said to the interviewer: "I could not go out with the commandos as Mr. Steyn can. I am too old, but I may be of some use here."

SORROW FOR HIS WIFE.

Regarding Mrs. Kruger, he said: "I am sorry for her too. I have a deep sorrow for her, but I have far more sorrow for my country. My wife has her children. They are still with her. They were left with her in her home. Two of my sons have died on the battlefield. Two were captured and I believe that two more are dead also, as I have not heard from them for two months, and I know that they were in the thick of the fight."

"Thirty-one sons and grandsons I have in the field, yet I could not go on commando. I have not heard from my wife for sixteen days, but she has six children with her and she is not to be pitied."

care nothing for them. What I want is a fair hearing. If they will only give us a fair hearing and justice—I ask for justice—we are a little folk, but we have made great steps."

It is asserted here that the real reason of the deadlock in Pekin is a difference in opinion between the foreign envoys and the military authorities, the former favoring a withdrawal of the troops to Tien Tsin and the latter urging a forward movement.

London, Feb. 16.—The Tien Tsin dispatch regarding the declaration of war against China by seven nations is not confirmed from any other source and possibly this is only another version of the rumored German ultimatum.

ROOSEVELT TO END HUNT, Governor and His Guide Bring in Two Wagon Loads of Big Game.

Meeker, Colo., Feb. 16.—"Buck" Davis, a cowboy, who has just come from the north, brings the information that Governor Roosevelt and his party will reach Meeker today. Mr. Roosevelt and John Goff, the guide, have been down the river, hunting outside the Coyote basin, and came back to the Keystone ranch Tuesday night with two wagonloads of lions and wildcats. One of the lions will probably measure and weigh more than any killed on the trip. It was treed about forty miles west of the Keystone ranch and killed by "Nig," one of Goff's bloodhounds. Davis says the roads between here and Coyote basin are in bad shape on account of heavy snow. The Colorado Midland agent at Rifle has been asked to reserve berths for Governor Roosevelt and his party on the train going east Saturday night.

SMALLPOX SCARE AT SALEM, WIS.

Over 700 People Employed in the Ice Harvest Have Been Exposed to Contagion.

Kenosha, Feb. 16.—The village of Salem in the western part of this county is in the throes of a smallpox scare and is stated that over 700 people employed in the ice harvest have been exposed to the disease.

DECLARATION OF WAR AGAINST CHINA

Report Sent From Tien-Tsin That Seven Nations Have Made Formal Proclamation of Hostilities.

Tien Tsin, Feb. 16.—It is reported here that seven nations today declared war against China.

It is asserted here that the real reason of the deadlock in Pekin is a difference in opinion between the foreign envoys and the military authorities, the former favoring a withdrawal of the troops to Tien Tsin and the latter urging a forward movement.

DEWET IS MAKING A RAPID MARCH

Boer General Has Crossed the Cape Rhodes Railway with 2,100 Men and Several Guns.

London, Feb. 16.—Lord Kitchener reports that Dewet has crossed the Cape Rhodes railroad north of Deaar Friday with Plumer's column in pursuit. Armed trains engaged the enemy while they crossed the line although the Boers cut the line north and south of the crossing places.

The British captured twenty wagons loaded with ammunition, one Maxim gun, one hundred horses and twenty prisoners. It is said that Dewet has twenty one hundred men and several guns.

HANNA WILL RIDE WITH MR. M'KINLEY

Washington, Feb. 16.—It has been settled that Hanna will ride with McKinley in the inaugural parade. This decision is the result of a long controversy. The suggestion that Roosevelt ride with him was turned down. Hanna as chairman of the joint congressional committee on inauguration has the right of way. Cannon, the house member of the committee may also ride with the president. The other members of the committee will ride with Roosevelt.

Primary Election Bill.

The next hearing on the primary election bill will be held next Tuesday evening and the committee of both houses announce their desire that all persons who wish to be heard at that time shall make it known to some member of the committee in order that a program may be mapped out.

The committees will spend as much time as is needed and the Tuesday evening following the final public hearing will be had. After that the discussion will be confined strictly to the members of the committee, but from the present outlook not much of this will be needed, as nearly all perhaps all of the members of both committees are said to be ready to report the bill favorably in almost its present form.

It is the present plan to have the argument for the bill at the last public hearing made by H. W. Chynoweth of Madison.

State Railway Commission.

Next to the primary election bill the hardest fight of the session thus far is being made on Hall's measure providing for a state railway commission. A similar bill has been

HALL IS OUT FOR WAR

He Will Push His Bill Providing for a State Rail-way Commission.

KIDNAPING BILL IS KILLED

Madison, Wis., Feb. 16.—Special—Wisconsin again has a state oil inspector, Governor La Follette having yesterday appointed George F. Cooper, editor of the Badger State Banner, Black River Falls, to fill the place made vacant through the expiration of

the term of Dr. H. B. Tanner.

The appointment was confirmed unanimously by the senate under suspension of the rules. The appointment is regarded as only temporary. The legislature is expected to carry out the recommendation of Governor La Follette and make a radical reduction in the fees so that it will probably not be worth more than \$1,500 a year.

Mr. Cooper, it is said, has given the governor to understand that he does not want the office after the reduction is made, and is merely put in to fill it in the interim. Since Dr. Tanner's term expired there has been no one authorized by law to receive the fees collected by the deputies.

Corporation Tax Bills.

The several corporation taxation bills sent to the legislature yesterday by the state tax commission make no change in the present system of taxing transportation and transmission companies, but make the laws clearer and more definite. In doing this they will considerably increase the amount of money realized from these companies as it will provide means of getting at a considerable amount of property which the companies claim is not taxable under the present law.

One of the bills provides for a practical reorganization of the tax system by enlarging its powers along the lines recommended by Governor La Follette in his message. The bill also makes the commission the state board of assessment, instead of the secretary of state, state treasurer and attorney general.

TOBACCO MEN ARE GIVEN MILLIONS

Gift of \$9,000,000 Made to the Trust by the Senate Finance Committee.

Washington, Feb. 16.—An ugly scandal lies half concealed in the war tax reduction bill. The great tobacco trust has been made a present of about \$9,000,000 through the favoritism of its friends in the senate committee on finance.

When the extraordinary bill of the senate committee was made public the shares of the American tobacco company rose eleven points in the New York stock market, and it is understood that certain senators profited by their inside information concerning the royal gift that was to be made the trust.

To their surprise and consternation the house conferees have discovered that the senate bill makes a total reduction of about \$18,000,000 on cigars and tobacco of all sorts. Where the house bill reduced these taxes \$3,200,000 all on cigars the senate goes them \$15,000,000 better.

The power of the tobacco trust in the senate committee is shown in the fact that of the \$15,000,000 of taxes taken off by the senate \$11,000,000 is on goods in which the two tobacco companies, the American and the Continental (which are really the same firm and virtually under the same management) have almost a monopoly.

It has been computed by experts that these two concerns will benefit to the extent of \$9

NOTES FROM THE CLUB WOMEN

The Klio club purchased last week at the exhibition by Chicago artists, "Eagle's Nest Bluff," by Charles Francis Browne, at a cost of \$200.

The Sunday Open Door held on Sunday afternoons by the Chicago Women's Clubs is becoming a great success and seems to be filling a long felt want.

Miss Jane Addams gave a talk on the Paris Exposition last Sunday.

Several Chicago clubs hold all day sessions this week.

Minnesota is holding its state federation meeting in St Paul this week. Over 600 club women are in attendance.

The D. A. R. were gracefully entertained at the home of Mrs. Lovejoy on Tuesday. There was a very good attendance and a large amount of business was transacted. Two new members were admitted. The regular program was opened by the singing of America by the society.

Miss Mabel Jackman then read a paper on Revolutionary women, followed by a piano solo by Mrs. Clarence Clark.

A reading by Mrs. Whiffen, "The last days of Washington at Newburg," was followed by a vocal solo by Mrs. Hawley. A paper on "Ancestry" by Mrs. Lovejoy, a piano duet by Mrs. Clark and Mrs. Jeffris, a paper on Lincoln by Mrs. Jackman, and another solo by Mrs. Hawley concluded the program. Mrs. Jackman and Mrs. Wheeler are to attend the congress of the Daughters at Washington next week as delegates.

The Eastern Star study class met at their rooms on Wednesday afternoon. After current events Mrs. Fletcher gave a paper on the Blackhawk war, and Mrs. Harrington one on the capture of the Hall girls. Mrs. T. O. Howe then concluded the program with a paper on the organization and the government of the territory. The class meets again in two weeks.

The Art section of the Art League met with Mrs. Ashcraft on Friday. Mrs. Noyes presided, with Miss Ida Harris secretary. Mrs. Kimberly

AIR BRAKE RAILWAY CONSTRUCTION CAR

A Traveling School House That is a Novelty is Sidetracked in North Western Yards Today.

A car that is a novelty in its way is side tracked at the Northwestern passenger station. It is called an air brake instruction car, and is sent out by the International Correspondence Schools at Scranton, Pa.

The car is in charge of Supt. White and is sent here to give instruction to their pupils, of whom there are about three hundred in this city.

The interior of the car is fitted up with an engine, boiler, Westinghouse air pump, air brakes and all the equipment necessary to operate a train of cars. Distributed around the interior of the car are a series of pipes, couplings and brakes, which represent the requirements of a train of fifty freight cars and two engines. These appliances are in running order and are used to give a practical demonstration of the workings of a train equipped with air brakes under all conditions, and how they should be used in every emergency.

Many of the appliances are in sections and show the interior mechanism of all the parts and their workings under different conditions.

The roof of the car is fitted with a series of pipes and valves and shows the use of the safety appliances on a passenger train of ten cars. By the use of this car fitted up with all these

in this city in another stirring romantic play by the same author, Anthony Hope. In "Rupert of Hentzau" Mr. Gould's latest presentation, ample scope is afforded for the display of his graceful personality and artistic finish as an actor of romantic roles, and in point of scenic setting and lavish costuming the production fills every requirement. The cast is up to the high standard of Daniel Frohman's Lyceum theater, New York, where the original production was given.

THE BUSINESS MEN WILL MEET TONIGHT

The meeting of the representative business men of the city to be held at the Myers House this evening to protest against the Hall bill, promises to be well attended. There is not a manufacturing interest in the city that is not affected by this law. Senator Whitehead and Assemblyman Valentine will be present at the meeting and listen to the objections of their constituents to the passage of the measure.

Pretty Masquerade Costume.

A pretty folly costume which will grace the Concordia masquerade Monday night is of flame colored satin. The bodice opens in the back and has the pointed effect that belongs to the character. The sleeves are full to the elbow and stop there, to be finished out probably with long gloves.

The skirt, which is quite short, is closely gored at the front and sides, with all the surplus fullness at the back. Over this will be worn streamers of white satin ribbon, finished with golden spikes, so much used now for tie and belt pendants. Five dozen spikes will be used on the costume which will doubtless be one of the most striking worn at the masquerade.

Mr. Howard Gould, who will be remembered for his success in "The Prisoner of Zenda," will soon appear

defeated at several sessions, and this one will probably be but it will have a larger support than its predecessors. Not only the railroad companies, but the manufacturers in localities where a differential rate is maintained, are opposing the bill, and sending telegrams and letters to members urging them to vote against it. Mr. Hall claims that a sentiment is being systematically worked up by the railroad companies and that if the manufacturers understood how much Wisconsin is at the mercy of the railroad companies they would favor his measure instead of opposing it. He is not daunted by the fight and says that at the hearing to be given the bill next Thursday he will produce figures which are unanswerable arguments for the passage of the bill.

Kidnapping Bill Killed.

The kidnapping of Eddie Cudahy does not appear to have made a very strong impression upon the Wisconsin solons. A bill increasing the maximum penalty in this state for kidnapping from three to ten years was killed in the assembly Thursday without even the formality of a debate by that talkative body.

Some Important Bills.

Among the important bills introduced during the week are those making manufacturers liable for damages for injury to employees by reason of defective machinery when the employee was not aware of the defect; providing a uniform law for the incorporation and government of fraternal insurance companies; providing that divorcees cannot wed within a year after the decree is granted; limiting the competition of convict labor with free labor; providing that one person shall be granted no more than one saloon license; increasing the school tax in cities of the third and fourth classes from one to five mills; repealing the corrupt practices act, which requires candidates for office to file statements for their campaign expenses; abolishing the office of state oil inspector.

Country Newspapers Interested.

Country newspapers are interested in a bill which passed the senate this week making the publication in newspapers of the proceedings of county boards compulsory. Some of the county boards in the northern part of the state have in recent years failed to have a printed record of their proceedings kept.

The apportionment committee has not got down to business yet. The census figures have been slow in arriving from Washington and these are necessary as a basis on which to work. But meanwhile each of the members has his own district figured out on each of the small maps which have been provided. Chairman Riordan has opened what he calls a "want book," in which the schemes of the various members are recorded, but he is the only one that knows all of its contents.

Met Carrie Nation.

Herman Buchholz of this city, while on a recent trip to Muscatine, Iowa, met Mrs. Carrie Nation and shook hands with her. Only a small crowd greeted her at that place and she did not commence to pay expenses. She was on her way to Chicago and left her manager behind to settle up her bills. She visited the bar room in the hotel where Mr. Buchholz was stopping and told them not to be afraid she would do them no harm. He said that she was a motherly looking woman and would not be taken for a woman with a high temper. Mr. Buchholz was much pleased to have had the chance of meeting Mrs. Nation and seeing what sort of a woman she was personally.

That is where some people feel weak all the time.

They are likely to be despondent and it is not unusual to find them borrowing trouble as if they hadn't enough already.

LOVE AND SENTIMENT.

Two anniversaries have transpired during the week, that have been suggestive. One, the birthday of Abraham Lincoln; the other, Saint Valentine's day.

The Lincoln anniversary was a reminiscence of a life so unselfish, so pure, so strong and so helpful, as to call out not only the admiration, but the love of a nation. A love so genuine and so profound that when the news of his sudden death was flashed over the country, every head was bowed in sorrow and every heart experienced a sense of personal loss.

That was love of Divine origin, deprived of all sentiment, and inspired by confidence and reverence for a man, who was a stranger, personally, to millions who mourned, yet nearer in sympathy than many friends of close acquaintance. The people loved him for his genuineness, and because of the great heart that he possessed.

There was a bond of sympathy, cemented by the history in which he was so prominent and sealed by sacrifice. Love in its best estate.

* * *

Saint Valentine's day, unlike Lincoln day, was a day of sentiment. Its observance in many cases was a sentimental observance, called out by the opportunity that the day presented, and forgotten when the day closed.

A day when any young man was free to send his best girl, or any other girl, a love sentiment, that on any other day, would have been a strong declaration, and the girl enjoyed the same undisputed privilege.

A day supposed to be prolific of engagements, because of the sentiment that surrounds it.

The difference between "Lincoln day" and "St. Valentine's day" is the difference between love and sentiment.

* * *

There are two varieties of homes. One founded on love, and controlled by it, the other existing on sentiment.

In the home where love abounds, the father, the mother, and the children are so enveloped in its atmosphere that every thought and act is prompted by it. Sacrifice ceases to be a duty and becomes a pleasure.

The husband regards the wife as companion, and as the years go by, and the chords of love strengthen, he recognizes the finer sensibilities of womanhood, and he thanks God for the woman that shares his home as his constant helpmeet. He anticipates her wants, and is considerate of her welfare.

* * *

The wife recognizes in the husband the qualities of true manhood. She appreciates the fact that his life is a life of struggle and responsibility in a world of sharp competition, where the survival of the fittest is the standard of success.

When he comes in at night, perplexed with care, and weary with the conflict, she meets him in neat attire, and with cheery voice and cheerful smile wins him out of himself, and by her loving presence inspires him with new hope and courage.

* * *

The children in this kind of a home are loving children. The father and mother are equally solicitous for their well being, and plan and sacrifice together for their future.

When the days of childhood are past and they stand on the doorstep of life, ready to leave the old home with its sacred associations, they are strong in hope and character because the environments of life have been so helpful.

The family may be scattered, but the memory and influence of the home abides. The world is better and society more wholesome because so many loving and loyal homes laid the foundation.

* * *

The love of country is the product of the love of home, and so when Abraham Lincoln said to the homes of the north, "The country has need of your boys to save to save the life and honor of the nation," there was a quick and cheerful response.

In the victory that followed, after the years of sacrifice, there came into the homes of the land a new and central figure, revered for its greatness and goodness, and loved with filial appreciation. This is why the picture of President Lincoln finds a place in so many homes, where his memory is sacred to the home life.

* * *

on sentiment and largely controlled by it, are not so numerous, and yet they exist, with too much frequency.

A sentimental valentine suggests to the light headed, careless hearted girl, a mate for life. The young man she selects is gushing and poetical. He is good company and can entertain her by the hour, in talking fine sentiment and building air castles.

They start out in life together with love for a diet and wake up soon after to the fact that life is a very matter of fact and intensely real. The disappointment is mutual, both of them have been fooled by a sentiment that they called love.

They go on into the years, the wife complaining, the husband criticising, and the children paddling their own canoes. On the surface, and before the public, the family are effusive and sentimental for appearance sake. The husband is "My dear," and the wife "My pet," and the children "Little darlings," when on parade, but stand behind the door when they come home and listen to the epithets, "You old skinflint," "Nice wife you are," while the children up stairs are comparing the "old man" and their mother in the home life, with the home across the street.

You turn away with the feeling that while Saint Valentine was a good old saint, that he made a very grave mistake if in any way responsible for that kind of a home, and you turn again to Lincoln with the feeling that his character was real, and wonderfully helpful.

It is true that life would be dreary without sentiment, but it is equally true that it would be a desert without love. A little sentiment is like salt to flavor the meal, but love is the meal itself.

The world is not suffering for sentiment half as much as it is for love, not only in the home but in the every paths of life.

Saint Paul uttered a great truth, as applicable today as when it was written in his letter to the Romans. "Be kindly affectionate one to another, with brotherly love."

A LONG SESSION.

While new bills will be shut off next Tuesday, it looks as though the present session of the legislature would continue until May first or later.

The business would be expedited if the primary election bill were permitted to wait for liberal discussion and called up later in the session.

There is plenty of other business of importance, and the primary law is not pressing. The friends of the measure will gain nothing by haste as the people want time to thoroughly digest the law.

It is to be regretted that the Wisconsin tobacco crop of 1900 is not in better condition. No one is to blame for it and there seems to be no way out of it except intelligent handling over the tables, and a price to the grower that will insure the packer against loss.

Mr. Culton of Edgerton, operating seven houses, in various parts of the state, recently said to a Gazette man that the crop was the most difficult to handle of any in his experience, and that he was losing a great deal of sleep in consequence.

Tobacco raising is a good deal of a lottery and the last crop appears to keep everybody guessing.

The effort to interest Mr. Carnegie in a library building for Janesville is highly commendable. While it is true that the city is not begging, it is equally true that a small portion of Mr. Carnegie's \$12,000,000 that he proposes to invest in various parts of the country, would be very acceptable to the Bower City. If a committee can wait on him it may result in good.

Senator John C. Spooner's name is already being discussed as a presidential possibility in 1904. While it is early in the day to forecast events of so much importance with any certainty, the people of Wisconsin will not hesitate to say that Mr. Spooner is equal to the occasion, and the country would be honored by his selection.

The time has again arrived for a Chicago newspaper to attack the public schools of that city under the title of "Fads." This time it is the Inter Ocean, and its columns are filled with complaining letters from disappointed and disgruntled parents, whose children have probably been reprimanded or suspended for misconduct, or inattention to their studies. This class of citizens are never up-to-date and rarely appreciate the improved methods used in modern education.

Pres. McKinley's instructions to General Wood in regard to the status of the United States government in Cuba, are in their nature preventative measures; intended to preserve for Cuba what has been bought so dearly with American blood and money.

The state department has properly refused to interfere with Venezuela in her settlement of the asphalt trouble.

should be allowed a chance to deal justly with the parties concerned.

Mr. Bryan will soon learn that the common people have no use for his open wounds and lacerated nerves. Sobs and tears won't run a weekly newspaper long.

If Mrs. Nation decides to drape all of Chicago's nude statues, she will find her hands full when she comes to the Art Institute.

STATE BOARD OF PHARMACY

Secretary Heimstreet Makes Suggestions in His Annual Report

Milwaukee, Feb. 16.—The State Board of Pharmacy granted fifteen certificates out of a list of eighty applicants. Secretary Heimstreet's report to the board showed that no special legislation has been introduced by druggists of the state, though several bills pertaining to pharmacy have been presented by others. The measure defining intoxicating liquors, the secretary said, was a puzzle to every one. That forbidding the street peddling of medicines he heartily commended as a safeguard to public health.

Several clauses of the medical bill, Mr. Heimstreet maintained, should not be supported by pharmacists.

The next meeting of the board will be at Sparta April 17 and 18.

CONCERNING NEW LIBRARY BUILDING

PLAN TO LEARN HOW TO APPROACH MR. CARNEGIE.

Good Offices of Influential Eastern Capitalists Can Be Secured to Bring the Matter Before the Multi-Millionaire's Attention — The Project Under Way.

While no great stir is being made about the library building project a good share of hard thinking and fine figuring is being done and the hope is entertained by those who are active in the matter that something practical will be evolved.

The more that the matter is looked into, the more essential it appears that the very best and most politic course be pursued, otherwise the hoped-for end must necessarily be defeated. The library directors offer their best services and the Caledonian society also and every person talked with on the subject gives his or her warmest endorsement. It will, however, probably devolve on a few to take the first steps which will be to learn from the intimate friends of Mr. Carnegie just how he may be best approached.

A letter written directly to the gentleman would probably never reach his eye, or if it did, however carefully worded, would likely be flung aside with the other letters of similar import he receives every day.

Janesville does not wish to invite any possible rebuff and so the ground will be carefully looked over before any claim is advanced. Some prominent Janesville gentlemen are well acquainted with wealthy and influential men in the East of the same nationality as Mr. Carnegie and good friends of his and through these common friends the most direct route to the multi-millionaire's heart can be learned.

This accomplished their good offices can easily be secured in placing the matter before Mr. Carnegie in an attractive light and it is confidently believed that if a hearing can be obtained there will be no subsequent difficulty. Such a project is now in mind and it has been confided to competent hands. Within the next few days the initiatory steps will be taken.

The newspapers contain frequent statements of Mr. Carnegie's munificence in other cities and there are several well authenticated stories afloat as to the peculiar ways in which his interest has been awakened in assisting cities and individuals. From these the one has been taken from which the procedure above outlined has been evolved.

It is of trifling consequence whether the donation come in response to a request from an individual, a society or a committee of citizens.

The main thing is to go about it in the right way and that done there is little question as to the result.

MISS F. O. RUMRILL'S READING RECITAL

The Lady Assisted by Miss Farnsworth, Mrs. Cole and S. F. B. String Quartet.

Several hundred of the elite of the city accepted the invitation to Miss Fannie O Rumrill's complimentary reading at the Y. M. C. A. last evening. This was Miss Rumrill's first public appearance and that she pleased a critical audience is the best commentary upon her work. She was ably assisted in filling out the evening's program by Miss Allie Farnsworth and Mrs. A. B. Cole and a string quartet from the State School for the Blind.

The stage was set for a parlor scene with piano, screens, handsome furniture, banquet lamp, etc., and was a vast improvement upon its customary blank condition. The program opened with an adagio of Hayden's by Leo Lange first violin; George Lenberger, second; Herbert Adams, viola; Samuel Edgvel, cello. It was well done and well received but ended as a rule were barred.

Miss Rumrill's first selection was Echo and the Ferry, Jean Ingelow's pretty poem. It is a dainty child story and was nicely rendered.

The comedietta by Miss Farnsworth and Mrs. Cole was an agreeable relaxation from the more serious numbers. Miss Farnsworth as Lady Clara was very smooth, easy and graceful and outranked many a professional in dealing with such a role. Her voice too is especially available for such comedy work.

Mrs. Cole, as the so-called maid, was full of vim and action. She well fitted the requirements of the character.

Leo Lange's violin solo with piano accompaniment was delightful and was encored. The trombone solo by Charles Parish was also highly meritorious. The program closed with a selection by the string quartet which was an appropriate ending to an unusually pleasant evening.

There will be a special meeting of Canton Janesville, No. 9, at West Side Odd Fellows' hall this evening for drill.

FRED YOUNG IS DEAD IN NEW MEXICO

Sad News Reached His Family Yesterday Afternoon—Remains on the Way to This City for Burial.

A telegram announcing the sad news that Fred Young of this city had died yesterday morning in Albuquerque, New Mexico, was received by his family in this city yesterday afternoon.

Mr. Young was born in this city in 1867, and lived here the greater portion of his life. For many years he was employed as a machinist at the New Doty Manufacturing company plant, and was always a steady, reliable young man. He had a great number of friends in this city, who will be pained to hear of his death. He was a member of Wisconsin Lodge No. 44, I. O. O. F., of this city.

Mr. Young had been sick for some time and left last September for New Mexico, in hopes of getting relief from his sickness. He improved very much in health after reaching New Mexico, and in his last letters said he thought he would soon be able to come home.

His relatives thick a sudden attack of pneumonia must have carried him off.

He leaves to mourn his death a wife and two-year-old child, also a father and mother, two sisters and a brother, all residents of this city.

The body was shipped today from Albuquerque and will be brought to this city for burial.

Martin Dooley Dead.

Martin Dooley, an old resident of this city died this morning at two thirty o'clock at the home of Horace Brundage on Nellie street in the Third ward. Mr. Dooley was seventy-eight years of age at the time of his death and had many friends in this city. Notice of funeral will be given later.

FOUND THE HOUSE HAD BEEN ROBBED

David Dudley of Chicago, son of D. E. H. Dudley of this city, is employed as a fireman on the Chicago & North Western railroad, and has been on one of the Janesville and Chicago runs of late. He has a home in Chicago, but, on account of his being here a good deal of the time lately, his wife has been visiting his parents in this city. During his absence the house is left alone, except when another fireman who rooms with him is at home.

Last Wednesday night the fireman reached home late at night from a trip and noticed the house all lit up, but with all the shades drawn; he thought it very queer, as he did not expect Mr. Dudley home. On entering, he found everything upside down and strewn around the rooms, showing that burglars had been taking their time looking for valuables.

A careful examination of the premises showed that only a few small articles had been carried off. The burglars gained entrance by prying open a rear window with a jimmy.

DEWET AGAIN VERY ACTIVE.

Going Into Cape Colony After Fighting.

THE BRITISH PURSUE HIM.

Boer Leader Moving to Southwest with 1,200 Men and Guns—Women and Girls Prove Themselves to Be Expert Drivers at the Front.

Cape Town, Feb. 16.—General Dewet is rapidly descending into the Cape Colony to the southwest. He has crossed the railroad above Da Aar, blowing up two culverts. He has 1,200 men and several guns. Colonels Plumer, Henniker, and Crabbe, with separate columns, are pursuing him. It is reported that Colonel Plumer has captured a great part of Dewet's ammunition train. During a four days' fight he captured a Maxim gun.

Ten British Wounded.

Colesburg, Cape Colony, Feb. 13.—Plumer's column engaged Dewet between Colesburg and Phillipstown Feb. 13, and gradually pushed back the Boers. The British had a battery of field artillery and the Boers one five-pounder. The shrapnel burst splendidly. Ten of the British were wounded during many hours' fighting. An occasional dead Boer was found. The engagement is being continued today. All the males at Grasfontein have been arrested. There is plenty of evidence that they were assisting the Boers.

Boer Destroy a Culvert.

Pretoria, Feb. 16.—Smuts' and Meyer's commandos attacked the railway near Bank and destroyed a culvert. Cunningham's force dispersed the Boers, inflicting a loss of three killed and twenty-three wounded. Other minor attacks have been made upon the railway in different directions.

Boers Occupy Murraysburg.

Cape Town, Feb. 16.—The Boers occupied Murraysburg, Cape Colony, Feb. 7. For a month Lord Methuen has been scouring the country between Kuruman and the Transvaal, bringing in women and children, cattle and food, from all the farms. Fifty women and 100 children, together with a few men, he has sent to Vryburg. On one occasion, while he was pursuing a commando, the Boers sent off their wagons in charge of women and girls in one direction and went themselves in another. The women were such expert drivers that the British had considerable difficulty in catching the convoy. General Smith-Dorrien occupied Amsterdam and Taung's Feb. 9.

Now in Battle with DeWet.

London, Feb. 16.—The war office has received the following dispatch from Lord Kitchener:

"Pretoria, Feb. 14.—Our troops are now engaged with Christian Dewet's force north of Philipstown, which we hold, Dewet having crossed the Orange river at Zand drift, apparently moving west.

"French, reporting from a point 25 miles southeast of Ermelo, states that a large force of the enemy is being driven on to Piet Retief, their efforts to break back having so far been frustrated.

"The Inniskillings charged the enemy, who left five killed and six wounded on the ground. Ten Boers were captured and there was a large capture of wagons, carts and cattle. Our casualties were one killed and five wounded."

OLD PEOPLE

Have a charm of their own when they are not weak and feeble, but have a hearty, enjoying the sports and pleasures of youth though they cannot participate in them. The whole secret of a sturdy old age is this: Keep the stomach and organs of digestion and nutrition in perfect order. The young man who does not think of his stomach will be made to think of it as he grows old. It is the "weak" stomach, incapable of supplying the adequate nutrition for the body, which causes the weakness and feebleness of old age.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It makes the "weak" stomach strong, and so enables the body to be fully nourished and strengthened by the food which is eaten.

"I suffered for six years with constipation and indigestion, during which time I consulted several physicians, but they could not reach my case," writes Mr. G. Popplewell, of Eureka Springs, Carroll Co., Ark. "I felt that there was no help for me, could not retain food on my stomach; had vertigo, and could not help myself to the floor. Two years ago I commenced taking Dr. Pierce's Golden Medical Discovery and little 'bellets,' and improved from the start. After taking twelve bottles of the 'Discovery' I was able to do light work, and have been improving ever since. I am now in good health for one of my age—60 years. I owe it all to Dr. Pierce's medicines."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

MAURICE THOMPSON DEAD.

Author Passes Away at His Home in Crawfordsville.

Crawfordsville, Ind., Feb. 16.—Maurice Thompson, the author, died at 3:25, after an illness of many weeks. He had been kept alive for several days by the use of stimulants. Mr. Thompson became unconscious about 9:30 o'clock and there was no sign of pain when the end came. The funeral will probably be held Monday.

Maurice Thompson came of a Virginia family and was of Scotch-Irish descent. He was born at Fairfield, Ind., Sept. 9, 1844. His parents removed to Kentucky when he was a child, and thence to northern Georgia, where they lived until 1863. Young Thompson was educated by private tutors under the direction of his mother, a woman of strong character and excellent education. This arrangement was made necessary by the fact that his father was a wandering Baptist minister, who rode round the country on horseback and spent little time at home.

The son was educated for a civil engineer, but developed more taste for languages and literature than for the calling set before him. He learned Greek, Latin and French, becoming proficient in the latter, which opened up to him the treasures of French literature in the original tongue. His first writings were in verse, which appeared in southern papers. He served in the confederate army during the civil war.

At the close of the war Thompson made an extended trip to Florida, which laid the foundation for some of his delightful outdoor sketches, published later. In 1868 he settled in Crawfordsville, Ind., where he obtained a position as a civil engineer for a railroad. He married the daughter of Col. John Lee, a railroad president. Soon after he abandoned railroading and with his brother opened a law office, but gradually drifted into literature. Thompson made his first hit with a series of papers on history printed in Harper's Monthly. His "Mow" stories attracted wide attention and won him the praise of such critics as Fowles and Lowell.

Among Mr. Thompson's works are "At Life's Extremes," "A Banker of Bankers," "Sylvan Secrets," "By Ways and Bird Notes," and a volume of poems. But his greatest success is his famous Indiana story, "Alice of Old Vincennes," recently published.

Mr. Thompson was a democrat in politics and served a term in the Indiana legislature. He was a delegate to the Democratic national convention at St. Louis in 1888. Four years he was state geologist of Indiana.

Marshall S. Pike Dead.

Boston, Feb. 16.—Marshall S. Pike, poet, singer and actor, is dead at his home in Upton. He had almost attained the age of 83 years. His name thirty years ago was familiar in most households as that of a poet, singer, musical composer and author of famous songs. Many will remember him as the author of that beautiful song, "Home Again." Mr. Pike was the author of "Indian Warrior's Grave," "Lone Starry Hours," and numerous other compositions. He was prominent as a singer, his soprano voice gaining for him a wide reputation, and famous as an organizer and director.

G. A. Pierce Is Dead.

Chicago, Feb. 16.—Gilbert Ashville Pierce, former territorial governor of Dakota and United States senator from North Dakota, a veteran newspaper man and one of the best known and most genial men who ever held a public position, is dead at the Lexington hotel, after an illness of several weeks.

Mr. Pierce's condition had been serious ever since he was first confined to his bed, and at one time it was alarming. But he rallied and was on a fair way to recovery until within a few days when he grew weaker. During the night he suffered a relapse and sank rapidly after 4 o'clock in the morning. He died within five hours.

Noted Scene Artist Dead.

New York, Feb. 16.—Joseph A. De la Harpe, who was well known as a scenic artist in the theaters of this city, and who of recent years was connected with the Brooklyn theatrical house of Hyde & Baumham, is dead at his home in Brooklyn.

Boy Killed by Burglar Alarm.

Hackensack, N. J., Feb. 16.—August Werkie, sixteen years old, of Westwood, N. J., invented a new burglar alarm with a gun attachment with which chicken thieves were to be exterminated. August is dead now, a victim of his own invention. In showing it to friends the gun was accidentally discharged and the boy was shot through the hand. Lockjaw set in and caused his death.

Poor Woman Help to Millions.

Bloomfield, Ia., Feb. 16.—Mrs. Mary Stevens, who has worked for her living in a restaurant for a long time, will fall heir to \$3,000,000 on the death of her uncle, William Bates, who has just appeared as from the dead.

He went to California in 1849 and was supposed to have died there. He has returned worth \$2,000,000, and will live with his niece, to whom he will give all his money at his death.

Record for Skinning Fish.

Gloucester, Mass., Feb. 16.—A new world's record for skinning 540 pounds of whole fish has been established by Freeman H. Brown, who performed the required work in 48 minutes and 50 seconds, against George E. Christchett, a noted skinner. The men were required to skin, properly cut, weigh and pack the fish, in ten 40-pound boxes. Christchett's time was 48:05. The best previous record was about one hour.

Hold for Embarrassment.

Salt Lake, Utah, Feb. 16.—Arthur J. Vanckur, ex-local treasurer of the Oregon Short line, was arraigned before Judge Daniel Smith on complaint of Auditor Hills. His bond was fixed at \$5,000. The charge against Vanckur is that of appropriating to his own use the company's funds in his keeping.

THE SENATE DEFIES HANNA.

It Will Not Vote on the Subsidy Bill.

OLEOMARGARINE BILL IS UP.

A filibuster consumes the time of the House—Mr. Cannon Outwitted, but Forces Roll Calls for Three Hours—No Quorum Point Taken for Delay.

Washington, D. C., Feb. 16.—The Grant oleomargarine bill was taken up in the senate today.

That the opposition to the shipping bill in the senate will not permit a vote to be taken on the measure at the present session was made clear during the closing hour of yesterday's session. For several days it has been evident that it would be difficult to gain unanimous consent to take a vote upon the measure, but not until now was the frank assertion made that a vote could not be had. At the conclusion of several hours' consideration of the bill, Mr. Teller (Col.) announced his purpose to prevent a vote at this session. In an impassioned speech he declared that he would not consent to any agreement to vote, and that it must be evident to the advocates of the bill that no vote could be had. The statement of the Colorado senator elicited a sharp response from Mr. Aldrich (R. I.), who insisted that despite the declaration of Mr. Teller the business of the senate would proceed in accordance with the wishes of the majority. Mr. Teller's statement also drew the fire of Mr. Chandler (N. H.), who asserted that the position of the opposition was preposterous. Mr. Hanna (Ohio) replied to Mr. Teller in a forceful speech, in the course of which he became impassioned in his denunciation of the methods employed by the opposition to defeat the measure. The advocates of the bill, he said, were honestly endeavoring to advance the best interests of the country, and he resented the insinuations against their honesty of purpose.

Filibuster in the House.

Under the leadership of Mr. Cannon, chairman of the appropriations committee, a long filibuster consumed the time of the house. Mr. Cannon desired the house to proceed with the sundry civil appropriation, but was caught napping by the Democrats, who desired to devote the day to the consideration of private claims. It was the last day under the rules which could be devoted to claims at this congress, and notices had been sent out asking the Democrats to be in their seats. As a result Mr. Cannon was outwitted, but he kept up the fight all day, forcing roll calls for three hours and later filibustering in committee of the whole and winding up by making the point of no quorum against two small bills favorably acted upon in committee. The net result was that the whole day was wasted.

To Favor the St. Louis Fair.

The special committee on the St. Louis exposition at a meeting held authorized Chairman Tawney next Monday to move the passage of the St. Louis exposition bill under suspension of the rules. Speaker Henderson has agreed to recognize Mr. Tawney to make this motion. When a motion to suspend the rules is made no amendments are in order.

An Old Medicine Appears in a New Gui e

There is No Longer Danger of Doing More Harm Than Good.

Vinol Substituted for Cod Liver Oil a Wonderful Improvement.

Mr. Smith, of Smith's pharmacy, whose name is so closely associated with Vinol, the wonderful discovery, is by this time becoming used to answering questions. Yesterday, in answer to a reporter, he said: "People are not making as many inquiries of me as they did. I am now having my innings and you may be sure I am improving them by asking questions. This talk of the difficulty of introducing a new discovery is one of your newspaper fellow's yarns. Let the discovery be all right and it goes right on and introduces itself. All you need to do is to give it a little shove and let it stand out before the public. It will do the rest. Yes, I did have to answer a great many questions for a few days. I will admit that, and of course I am not entirely through yet; but Vinol's friends are talking for it almost as well as it talks for itself, and good news, as well as news of that which will do good, gets around pretty fast.

"You see it was not a very difficult thing to explain. Everybody grasped the idea in a minute, when I told them the real value of cod liver oil existed in certain active principles always found in the liver of the live cod. It was not very hard work for any one to believe that these same principles could be secured by a special process, without its being necessary to have them connected with the disagreeable and vile-smelling grease that formerly was part of the remedy which the world had known as cod liver oil. Well, that is about all I had to tell them. It is not very hard work for even a child to comprehend that given a certain extract that contains valuable medicinal principles, that just the right amount can be administered, and even a child could mix this same extract in the delicious table wine which we are using and which so prepared goes under the name of Vinol—Wine of Cod Liver Oil.

"Yes, indeed, any number of people have already found out the value of Vinol. Lots of them are coming to me every day and telling me that they knew it was necessary for them to take cod liver oil, but they could not do it. They are now telling me of the good they are deriving from Vinol, and I am surprised myself at the rapid way such benefits show themselves. This is where I am asking my questions and collecting a nice little batch of information in regard to the good that is being done in this city to people we all know. Will I publish any of it? Oh, I do not think I will. Not for the present at least, and of course I never would without the full permission of the people who tell me their stories. Many of them say more than they would like to see in print, they are so enthusiastic on the subject. Yet, perhaps, in a few days I will be able to give you the names of a few of the best known people in the city, who are warm advocates of Vinol, and are doing more in a minute to gain new converts for it than I could in a week."

PERSONALS.

Mrs. E. P. Green has recovered from an attack of the grip at Canaseraga, N. Y., by the use of Dr. Miles' Pain Pills.

Among the victims of the grip epidemic now so prevalent, F. Coyle is recovering at Canton, O., by the use of Dr. Miles' Nervine and Pills.

W. E. Nihells, of St. Louis, Mo., who was down with grip, is reported much improved. He used Dr. Miles' Nervine and Pills.

The friends of Mrs. L. Denison will be pleased to learn of her recovery from grip, at her home in Bay City, Mich., through the use of Dr. Miles' Nervine and Pills.

Everybody says that J. W. Udy is looking splendid since his recovery from the grip at his home in Des Moines, Iowa. They all know that Dr. Miles' Nervine was what cured him.

At nearly three score and ten Mrs. Galen Humphrey was fighting against odds when the grip attacked her, but she took Dr. Miles' Nervine, and now her neighbors at Wareham, Mass., remark on how well she is looking.

Prosecuting Attorney Charles L. De Waele, who has passed the three-score mile stone, had a time with the grip; but when seen at his home in Roscommon, Mich., the other day, he said Dr. Miles' Nervine was what cured him.

After an illness of five weeks from the grip, Mrs. Harriet Jackson is again about and looking fine. She began taking Dr. Miles' Nervine after the fourth week. Her home is in Bowling Green, Mo.

"When the grip left me my nerves and heart were badly affected; but I began taking Dr. Miles' Nervine and Heart Cure and was soon all right." Wm. Roericht, Eau Claire, Wis.

Post's Boys Get.

Chicago, Feb. 16.—Messenger boys of the Postal Telegraph company wear a strike for more pay and their picket were soon involved in a livelyistic encounter along "newsboys' alley." "Extra" boys, put to work to take the places of the strikers, were waylaid when they ventured from the Postal company's office at Washington and La Salle streets, and some were handled roughly by the strikers' "punching committee," stripped of their badges and forced to join the insurrection or take their messages back to the office.

Baby Shot by Brother.

Butler, Pa., Feb. 16.—Warren Armstrong, the two-year-old son of James Armstrong of Flick, was killed yesterday afternoon by being shot through the head by a bullet from a revolver in the hands of his six-year-old brother. Their mother had taken her two little children on a visit to an aunt. While the women were talking in the front room the boys in another room found the weapon, played with it and it was accidentally discharged. The bullet struck Warren above the right eye. He died two hours later.

TO CURE THE GRIP.

Advice of a Famous Physician.

First and foremost, rest.

Take care of yourself. Your already weakened nerves want rest, and must have it. If the attack is severe go to bed and remain there. More fatalities result from neglect of this precaution than from any other cause.

Eat sparingly. Your digestive organs are in no condition to take care of the large quantities of food.

Drink plenty of pure cold water. It relieves the fever, stimulates the kidneys to action and opens up the pores of the skin. Keep the bowels open with Dr. Miles' Nerve and Liver Pills.

Take three doses of Dr. Miles' Nervine per day, and if you cannot sleep take an extra dose at bed time. To overcome the fever and to overcome the peculiar aches and pains of the grip, use Dr. Miles' Pain Pills. They act quickly and effectively, and no bad effects result from their use. These remedies have been thoroughly tested more than a million times, and their efficiency is thoroughly established. They never fail to give relief.

Dr. Miles' Remedies can be found at any drug store, and they are sold on a positive guarantee that the first bottle or package benefits or money refunded.

After an illness of five weeks from the grip, Mrs. Harriet Jackson is again about and looking fine. She began taking Dr. Miles' Nervine after the fourth week. Her home is in Bowling Green, Mo.

HERE IS HEALTH

For all who have Weak Lungs

EDITOR'S NOTE.—The Slocum System is medicine reduced to an exact science by the world's foremost specialists, and our readers are urged to take advantage of Dr. Slocum's generous offer.

THESE FOUR REMEDIES

Represent a new system of treatment and cure, for the weak and for those suffering from CONSUMPTION, wasting diseases or inflammatory conditions of the nose, throat, and lungs.

The treatment is free. You have only to write to obtain it.

Its efficiency is explained as simply as possible below.

By the new system devised by DR. T. A. SLOCUM, the great specialist in pulmonary and kindred diseases, all the requirements of the sick body are supplied by the FOUR remedies constituting his Special Treatment known as the Slocum System.

Whatever your disease, one or more of these four preparations will be of benefit to you.

The third preparation is a medicinal healing cream, in patent Oozell nasal tubes. It cures catarrh. It heals all irritation of the nose, throat and mucous membranes. It gives immediate relief. It is also a dainty application for sore lips, chapped hands, cold sores, rough skin, etc.

Perhaps many thousands of our readers need the Oozell Cure for Catarrh without any of the other articles.

The fourth article is an Expectorant and Cough Cure. Can positively be relied upon. Is absolutely safe for children, goes to the very root of the trouble, and not merely alleviates, but cures.

The four preparations form a panoply of strength against disease in whatever shape it may attack you.

THESE FOUR REMEDIES

WRITE FOR FREE TRIAL.

To obtain these FOUR preparations, illustrated above, that have never yet failed to cure, all you have to do is to write to

DR. T. A. SLOCUM, 98 Pine St., New York.

TO TALK WITH EUROPE.

Professor Pupin's New Invention Makes Ocean Telephone Possible. "Hello, New York!" "Hello, London!" If the plans of Professor Michael L. Pupin work correctly, there is no reason why the first years of the new century should not hear such a message spoken across the ocean. Professor Pupin has just perfected an invention which will in all probability not only render submarine telephony possible, but also greatly increase the efficiency of ocean cables and land telegraphs and telephones.

The inventor is about 40 years old and is adjunct professor of mechanics in Columbia university. He is considered one of the leading electricians of the country.

He has been working on his marvelous invention for several years and

Photo by Pach, New York.

PROFESSOR MICHAEL I. PUPIN. Upon its recent perfection offered it to the leading telephone and telegraph company of the United States. Its experts thoroughly tested and warmly approved it. The company has agreed to pay Professor Pupin about \$500,000 for his invention, as well as an annual royalty of about \$15,000 during the life of the patents, which is 17 years.

To describe accurately the invention would necessitate the use of technical language unintelligible by a layman. According to the professor himself, the difficulty hitherto has been to overcome resistance. In the present ocean cables the current has so many obstacles to battle with that it is comparatively slow in traveling and becomes very weak before it reaches its destination, 3,000 miles away. Professor Pupin, after long experiments, finally discovered that the insertion of eight induction coils to every mile of wire would overcome this resistance and messages could be sent over the cable at a much faster rate.

By this means every time the current begins to slacken its strength it will meet one of the coils, which will give it renewed impetus until it reaches the next one, and so on. It is practically a relay method of applying strength. The new system will involve the laying of new cables at enormous expense. It is this feature which is retarding the work at present. The new cables will require no greater strength of current or different instruments from those now used.

Smallpox on Ocean Liner.
New York, Feb. 16.—There was a smallpox patient on board the North German Lloyd steamer Oldenberg, which has reached this port from Bremen with eleven cabin and 1,132 steerage passengers on board. The sick man, who traveled steerage, was removed to the reception hospital. The steamer will be disinfected and all her passengers vaccinated before she is permitted to come up to the city.

Thirty Persons Injured.
Cincinnati, Feb. 16.—Thirty passengers in a street car coming to Cincinnati from Dayton, Ky., were carried down a fifty-foot embankment into the bed of a small stream on the Kentucky side of the river, between 9 and 10 o'clock in the morning, and only one of the number escaped injury. At the same time not one of the number was killed. How many die cannot yet be told.

Break Jail in Wisconsin.
La Crosse, Wis., Feb. 16.—The police have received word that a jail delivery had occurred at the county jail at Alma, Pepin county. Two prisoners, Harry Miller and Edward Evans, made a successful escape. They broke down a steel door and dug a hole in the brick wall. They have not been recaptured. They were charged with robbing the Burlington depot at Alma.

Susan B. Anthony Is 81.
Rochester, N. Y., Feb. 16.—Messages of congratulation which poured in upon Susan B. Anthony from all quarters were doubly appropriate to the occasion, as the day not only is the anniversary of her birth, but also finds her recovering from a severe illness.

Lottery Bill Is Defeated.
Carson, Nev., Feb. 16.—In the state senate a concurrent resolution known as the lottery bill, which passed both houses two years ago, was defeated 8 for and 10 against.

Maine Still at Shipyard.
Philadelphia, Feb. 16.—The third anniversary of the blowing up of battleship Maine, resulting in the loss of 253 lives, did not witness the launching of the new Maine at Cramp's shipyard. The new sea fighter can scarce-

BORT, BAILEY & CO.

Pays High for Seat.
New York, Feb. 16.—The top price for a membership in the stock exchange has been paid by Charles L. Gates, a son of John W. Gates, who is the dominant factor in the American Steel and Wire company. The price paid for his seat was \$1,000, which exceeds the latest previous mark of \$50,000. With the addition of the regular \$1,000 initiation fee, the seat secured by the son of the steel magnate will cost \$52,000. The membership secured was that formerly held by L. W. Bickley, formerly of the firm of Bickley & Hopkins.

Smuggling of Chinese.
Portland, Me., Feb. 16.—The federal authorities here are in possession of papers found on the person of Sam Wah Kee of Boston, when he was arrested in the act of smuggling six of his countrymen into the United States across the Maine border, which led to the belief that an organized band of influential Chinese has been engaged in smuggling their fellows into this country with the collusion of government officials.

GET INSIDE.

Your Friends and Neighbors in Janesville, will show you how.

Rubbing the back won't cure back-ache. A liniment may relieve, but can't cure Backache comes from the inside, from the kidneys.

Doan's Kidney Pills get inside. Here is Janesville proof that this is so:

Veteran A. F. Lee, of 61 Sharon St., carpenter, says:

For twenty years it troubled me a great deal, many days I could hardly keep at my work, and by rig us should have staid at home and doctored. It was seen that my back did not come, and I have been stretching and stretching there or four days at a stretch. When stooping or lifting sharp twinges penetrated the kidneys, the secretions from those organs were too frequent, and accompanied by pain. I used all kinds of remedies but none gave permanent relief. Obtaining Doan's Kidney Pills at the People's Drug Store, took three or four days to see a change was brought about. I improved steadily from then on and on completing the treatment I was in good condition and am now well."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for U. S. Also or sale at King's Pharmacy.

Remember the name, Doan's and take no other.
